## **PRESS RELEASE/PSA**

### **Mendocino County Advisory about Fake Health Inspector Scam**

At least three Mendocino County food facilities have received a phone call from a person claiming to be a health inspector recently. The individual wanted to schedule an inspection. Additionally two people claiming to be health inspectors showed up at one facility.

The Mendocino County Environmental Health Division generally does not schedule inspections. Mendocino County Health Inspectors also carry photo identification. Ask to see the inspector's agency identification if the inspector is unknown to you.

Please do not give out business or personal information over the phone or in person to someone you do not know. If someone claiming to be a health inspector contacts you please call the Mendocino County Environmental Health Division at (707) 463-4466.
