**MENDOCINO COUNTY ANNOUNCES A MEETING IN THE TOWN OF MENDOCINO TO DISCUSS
TRAFFIC SAFETY AND FUTURE PEDESTRIAN IMPROVEMENTS**

On September 14, 2015 the Department of Transportation removed a non-conforming ramp from the right-of-way at the corner of Kasten Street and Main Street in the town of Mendocino. As a temporary safety measure, due to the elevated height of the concrete patio which has functioned as a public pedestrian walkway, a railing has been installed.

The installation of a temporary safety railing has initiated concerns within the community regarding the need for alternative public access along Main Street. Supervisor Hamburg has coordinated a public meeting to discuss the temporary measures and long-term options for compliant public pedestrian facilities in the town of Mendocino. On **September 25, 2015 at 3:00 p.m.** a meeting will be held at **Saint Anthony's Hall**, located at 10700 Lansing Street, Mendocino. In addition, County staff expects to provide an informational update to the Mendocino Historical Review Board at their regularly scheduled meeting on October 5, 2015.

Questions regarding traffic safety and pedestrian improvements should be directed to Howard Dashiell, Director of Mendocino County Department of Transportation, by phone at (707) 463-4363 or by email at dashiellh@co.mendocino.ca.us.
