## **Mendocino County European Grapevine Moth Update** **June 3, 2010**

**Trapping Update** No moths have been trapped since May 24<sup>th</sup>. We are between flights. We are anticipating the second flight to begin around late June. We will update you with more definitive information as we receive information from Napa. We will issue a notice of timing for second generation larval sprays at that time.

### **Treatment/Quarantine**

We have selected June 29<sup>th</sup> and 30<sup>th</sup> for the issuance of compliance agreements to growers in the quarantine area. This will take place in the Ag Conference room in our building. Stay tuned to find out which day your letter of the alphabet will be issued. Wineries and nurseries will have a separate meeting to be announced later.

We have produced an aerial PDF map of the quarantine area along with the recommended 1000 meter treatment zones. This may be accessed on our website at the following link: [www.co.mendocino.ca.us/agriculture](http://www.co.mendocino.ca.us/agriculture)
