The Board of Supervisors of the County of Mendocino, by a four-fifths vote, ordains as follows:

Section 1. Urgency Ordinance. This ordinance is an urgency ordinance necessary for the immediate preservation of the public peace, health and safety. The amendments to Chapter 9.31 of the Mendocino County Code being made by this ordinance are necessary to establish registration and permitting requirements, as well as additional measures to protect the environment, that will provide for additional enforcement capability by the County and limit further degradation of the environment.

Section 2. Chapter 9.31 of Title 9 of the Mendocino County Code is amended to read as follows:

Chapter 9.31 of Title 9 of the Mendocino County Code is amended to read as follows:

"MEDICAL MARIJUANA CULTIVATION REGULATION"

Section 9.31.010 Purpose and Intent.

It is the purpose and intent of this Chapter to immediately regulate medical marijuana in a manner that is consistent with State law and which is necessary to protect the health, safety, and general welfare of the residents and businesses within the unincorporated territory of the County of Mendocino by balancing: (1) the needs of medical patients and their caregivers for enhanced access to medical marijuana; (2) the needs of neighbors and communities to be protected from public safety and nuisance impacts; and (3) the need to limit harmful environmental impacts that are sometimes associated with marijuana cultivation. Nothing in this Chapter shall be construed to: (1) allow persons to engage in conduct that endangers others or causes a public nuisance as defined herein; (2) allow the use or diversion of marijuana for nonmedical purposes; or (3) allow any activity relating to the cultivation, distribution or consumption of marijuana that is otherwise illegal under California State law.

**Sec. 9.31.020 Confidential Nature of Medical Marijuana Information
Legislative Intent.**

Pursuant to the California Compassionate Use Act of 1996, enacted by the voters of the State of California on November 5, 1996 and implementation statutes such as California Health & Safety Code section 11362.71, the County of Mendocino Board of Supervisors hereby finds and declares that all use information received by and/or generated by the operation of Chapter 9.31 is and always has been intended to be treated and held by the County of Mendocino as confidential information to the fullest extent authorized by California and Federal law from 2008 to the present as well as prospectively. This is a declaration of past, current and prospective legislative intent for all versions of Chapter 9.31 dating back to 2008.

Section 9.31.030 Findings.

- (A) The voters of the State of California approved Proposition 215 (codified as Health and Safety Code section 11362.5 and entitled “The Compassionate Use Act of 1996”).
- (B) The intent of Proposition 215 was to ensure that seriously ill Californians have the right to obtain and use marijuana for medical purposes where that medical use is deemed appropriate and has been recommended by a physician, and to ensure that patients and their primary caregivers who obtain and use marijuana for medical purposes upon the recommendation of a physician are not thereby subject to criminal prosecution or sanction. The Act further provides that “nothing in this section shall be construed to supersede legislation prohibiting persons from engaging in conduct that endangers others, or to condone the diversion of marijuana for non-medical purposes.”
- (C) The State enacted SB 420 in 2004 (codified as Health and Safety Code section 11362.7 et seq.) to clarify the scope of The Compassionate Use Act of 1996, facilitate the prompt identification of qualified patients and primary caregivers, avoid unnecessary arrest and prosecution of these individuals, provide needed guidance to law enforcement officers, promote uniform and consistent application of the Act, and enhance the access of patients and caregivers to medical marijuana through collective, cooperative cultivation projects and to allow local governing bodies to adopt and enforce rules and regulations consistent with SB 420.
- (D) Marijuana plants, whether grown indoors or outdoors, especially as they mature prior to harvest, may produce a distinctive odor that may be detectable far beyond property boundaries.
- (E) Each year since 2004, the Mendocino County Air Quality Management District has received a significant number of formal complaints of odor related to the cultivation of marijuana in residential neighborhoods.
- (F) Marijuana, whether grown for medicinal purposes, or diverted to the black market, may be sold for thousands of dollars per pound.
- (G) The strong smell of marijuana may create an attractive nuisance, alerting persons to the location of the valuable plants, and creating a risk of burglary, robbery and armed robbery.
- (H) There have been several marijuana related incidents of burglary, robbery and armed robbery, some including acts of violence resulting in injury or death.
- (I) Marijuana that is grown indoors may require excessive use of electricity which may overload standard electrical systems creating an unreasonable risk of fire. If indoor grow lighting systems are powered by diesel generators, improper maintenance of the generators and fuel lines and the improper storage and disposal of diesel fuel and waste oil may create an unreasonable risk of fire and pollution.
- (J) The right of qualified patients and their primary caregivers under State law to cultivate marijuana plants for medical purposes does not confer upon them the right to create or maintain a public nuisance. By permitting no more than twenty-five (25) marijuana plants on any one (1) parcel, the

County anticipates a significant reduction in the complaints of odor and the risks of fire, crime and pollution described herein.

- (K) The County finds that the indoor or outdoor cultivation of more than twenty-five (25) marijuana plants on any one (1) parcel within the unincorporated area of the County for medicinal purposes will likely result in an unreasonable risk of crime and will likely create odors offensive to persons living nearby notwithstanding the limitations on cultivation that are imposed within this Chapter. The County further finds that the indoor cultivation of more than twenty-five (25) marijuana plants on any one (1) parcel may create an unreasonable risk of fire and/or pollution.
