- e. Staffing ratios that are consistent with the requirements in Title 9, CCR, Sections 1840.350 and 1840.352, and, for day treatment intensive, that include at least one staff person whose scope of practice includes psychotherapy.

Program staff may be required to spend time on day treatment intensive and day rehabilitation activities outside the hours of operation and therapeutic milieu, e.g., time for travel, documentation, and caregiver contacts.

The Contractor shall require that at least one staff person is present and available to the group in the therapeutic milieu for all scheduled hours of operation.

The Contractor shall require that if day treatment intensive or day rehabilitation staff are also staff with other responsibilities (e.g., as staff of a group home, a school, or another mental health treatment program), a clear audit trail is documented by the provider. The Contractor shall require that there be documentation of the scope of responsibilities for these staff and the specific times in which day treatment intensive or day rehabilitation activities are being performed exclusive of other activities.

Adult clients may choose whether or not this service component is done for them. The contacts and involvement should focus on the role of the significant support person in supporting the client's community reintegration. It is expected that this contact will occur outside hours of operation and the therapeutic milieu for day treatment intensive and day rehabilitation.
7. A written program description for day treatment intensive and day rehabilitation. Each provider of these services, including Contractor staff, shall be required to develop and maintain this program description. The written program description shall describe the specific activities of the service and reflect each of the required components of the services described in this section. The Contractor shall review the written program description for compliance with this section for individual and group providers that begin delivering day treatment intensive or day rehabilitation prior to the date the provider begins delivering day treatment intensive or day rehabilitation.
