Health Care Professionals:

Mendocino County is asking that all Health Care Professionals sign up for "Disaster Healthcare Volunteers" also known as "DHV"

This is a single source system, operated by local, regional, state, public health, mental health and other emergency and disaster organizations.

Completing the DHV registration process will allow healthcare professionals and others to be utilized fully in the event of an emergency or disaster.

- * DHV volunteers are pre-registered and pre-credentialed.
- * Registration in the DHV system does not obligate response.
- *Volunteers are not obligated to respond outside of their local area.
- *Volunteers may not self deploy.
- *Information about volunteers is secure & confidential.
- *The DHV database is intended to be used during declared disasters and emergencies.

This Database verifies your medical credentials, so please have your license information available when you log on to register.
